

Carlsbad Field Office
Nominated Parcels for July 20, 2011 Oil and Gas Lease Sale

NM-201107-014 640.480 Acres
T.0220S, R.0220E, NM PM, NM
Sec. 001 LOTS 1-4;
001 S2N2, S2;

Eddy County

Stipulations:

NM-11-LN Special Cultural Resource
SENM-LN-1 Cave - Karst Occurrence Area
SENM-S-17 Slopes or Fragile Soils
SENM-S-18 Streams, Rivers, and Floodplains
SENM-S-21 Caves and Karst
SENM-S-25 Visual Resource Management

NM-201107-015 40.000 Acres
T.0220S, R.0240E, NM PM, NM
Sec. 024 SESE;

Eddy County

DEFER – PARCEL IS LOCATED WITHIN THE MCKITTRICK HILLS SPECIAL
MANAGEMENT AREA (SMA). THE SMA IS CLOSED TO LEASING.

NM-201107-016 318.730 Acres
T.0220S, R.0250E, NM PM, NM
Sec. 030 LOTS 1, 2;
030 NE, E2NW;

Eddy County

Stipulations:

NM-11-LN Special Cultural Resource
SENM-LN-1 Cave - Karst Occurrence Area
SENM-S-18 Streams, Rivers, and Floodplains
SENM-S-20 Springs, Seeps and Tanks
SENM-S-21 Caves and Karst
SENM-S-25 Visual Resource Management
SENM-S-47 Lease Reclamation

NM-201107-018 23.770 Acres
T.0260S, R.0280E, NM PM, NM
Sec. 033 LOTS 2;

Eddy County

Stipulations:

NM-11-LN Special Cultural Resource
SENM-LN-1 Cave - Karst Occurrence Area
SENM-S-14 No Surface Occupany
SENM-S-18 Streams, Rivers, and Floodplains
SENM-S-21 Caves and Karst

NM-201107-020 2301.130 Acres
T.0260S, R.0290E, NM PM, NM

PECOS DISTRICT LEASE STIPULATION SUMMARY
CARLSBAD FIELD OFFICE

| <u>Stipulation</u> | <u>Description/Purpose</u> |
|---------------------------|--|
| SENM-S-1 | POTASH STIPULATION All or a portion of the lease is located within the Secretary's Potash Area as described in the Secretarial Order, 51 Federal Register 39425(October 28, 1986). In order to protect potash resources, special protective measures may be developed during environmental analyses and be required as part of approvals for drilling or other operations on this lease. |
| SENM-S-14 | NO SURFACE OCCUPANY (NSO) The lease or portion of a lease for the area described above is issued for the sole purpose of assisting in the orderly development of the Federal mineral estate. The lease may be developed by directional drilling from a surface location outside of the designated NSO portion of the lease. |
| SENM-S-16 | CONTROLLED SURFACE USE – RAPTOR NESTS AND HERONRIES Surface disturbance will not be allowed within up to 200 meters of active heronries and raptor nests and/or by delaying activity up to 120 days for active heronries and 90 days for raptor nests. |
| SENM-S-17 | CONTROLLED SURFACE USE – SLOPES OR FRAGILE SOILS Surface disturbance will not be allowed on slopes over 30 percent. Occupancy or use of fragile soils (e.g. dunes, gypsum soils) will be considered on a case-by-case basis. |
| SENM-S-18 | CONTROLLED SURFACE USE – STREAMS, RIVERS, FLOODPLAINS All or portions of the lands under this lease lie in or are adjacent to a major watercourse and are subject to periodic flooding. To protect floodplains, surface occupancy of these areas will not be allowed within up to 200 meters from the outer edge of the floodplain. |
| SENM-S-19 | CONTROLLED SURFACE USE – PLAYAS AND ALKALI LAKES Surface disturbance will not be allowed within up to 200 meters from the edge of playas or alkali lakes. |
| SENM-S-20 | CONTROLLED SURFACE USE – SPRINGS, SEEPS, TANKS Surface disturbance will not be allowed within up to 200 meters of earthen tanks or adjacent riparian areas; from the source of a spring or seep; or within downstream riparian areas created by flows of a spring or seep or resulting from riparian area management. |
| SENM-S-21 | CONTROLLED SURFACE USE – CAVES AND KARST All or portions of the lease are located in a cave or karst occurrence area. Due to the sensitive nature of cave/karst systems in this area, surface disturbance will not be allowed within up to 200 meters of known cave or karst features or systems. |
| SENM-S-22 | CONRTROLLED SURFACE USE – LESSER PRAIRIE CHICKEN (LPC) Drilling for oil or gas, and 3-D geophysical exploration will not be allowed in LPC (<i>Tympanuchus pallidicinctus</i>) habitat from March 1 through June 15. During that period noise producing activities associated with these operations will not be allowed between 3:00 a.m. and 9:00 a.m. In addition, no new drilling will be allowed within up to 200 meters of leks, and exhaust noise from pump jack engines must not exceed 75 db measured at 30 feet from the source of the noise. |
| SENM-S-23 | CONTROLLED SURFACE USE – SAND DUNE LIZARD (SDL) Surface disturbance will not be allowed in documented SDL (<i>Sceloporus arenicolous</i>) occupied habitat areas or within up to 200 meters of suitable habitat associated with occupied habitat areas identified through field review. |

| | |
|-----------|--|
| SENM-S-25 | <p>CONTROLLED SURFACE USE – VISUAL RESOURCE MANAGEMENT (VRM) Special operating constraints will be required to minimize visual impacts, such as low profile tanks and selected paint colors to match predominant soil or vegetation color of the area.</p> |
| SENM-S-46 | <p>PLAN OF DEVELOPMENT/SURVEY REQUIREMENTS – SDL In order to manage suitable habitat for SDL, a survey for occupied and suitable sand dune lizard habitat for the entire lease is required. Based on the results of the surveys, a POD may be required.</p> |
| SENM-S-47 | <p>LEASE RECLAMATION Lease contains well locations, roads and/or ancillary facilities that were not plugged and/or reclaimed to standards. The lessee shall plug, remediate and reclaim the locations, associated roads and ancillary facilities within two years of lease issuance.</p> |
| SENM-S-52 | <p>CONTROLLED SURFACE USE - OFF-SITE MITIGATION Pending; Under Development</p> |
| SENM-LN-1 | <p>LEASE NOTICE – POTENTIAL CAVE OR KARST OCCURRENCE AREA All or portions of the lease are located in a potential cave or karst occurrence area. Special protective measures may be developed during environmental analyses and may be required as approvals for drilling or other operations.</p> |
| SENM-LN-2 | <p>LEASE NOTICE – PROTECTION OF THE SDL All or portions of the lease may contain suitable and occupied habitat of the SDL. The lessee may be required to conduct an examination of the lands to determine the occurrence of the SDL. Exploration and lease development may be limited to areas outside of suitable or occupied habitat and Conditions of Approval (COA) may be developed to protect habitat.</p> |
| SENM-LN-4 | <p>LEASE NOTICE – HACKBERRY LAKE OHV AREA All or a portion of the lease is located in the Hackberry Lake Off-Highway Vehicle (OHV) area. Special protective measures would be developed to protect existing OHV trails and camping areas. These measures could include modifications or relocation of proposed well locations; burial of linear facilities such as pipelines at lease road and OHV trail intersections; additional sign placement; modifications in surface activities; or other reasonable measures to mitigate impacts to recreational activities.</p> |
| NM-LN-11 | <p>LEASE NOTICE – CULTURAL RESOURCES All development activities proposed under the authority of this lease are subject to compliance with Section 106 of the National Historic Preservation Act and Executive Order 13007. Compliance could require intensive cultural resource inventories, Native American consultation and mitigation measures to avoid adverse effects.</p> |

OKLAHOMA FIELD OFFICE LEASE STIPULATION SUMMARY
TEXAS, OKLAHOMA & KANSAS

| <u>Stipulation</u> | <u>Description/Purpose</u> |
|--|---|
| FS 1 TX, OK, KS | STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM UNDER JURISDICTION OF DEPARTMENT OF AGRICULTURE The permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the permit. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of an exploration plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area permitted by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by an exploration plan approved by the Secretary of the Interior. |
| FS8 TX CSU-1B | CONTROLLED SURFACE USE STREAMSIDE MANAGEMENT ZONE Portions of this lease contain segments of either perennial or intermittent streams as defined by the Forest Service. Areas within 100 feet of perennial streams or 66 feet of intermittent streams will be subject to special requirements or limitations for surface use or occupancy |
| FS8 TX CSU-1K | SOIL EROSION, WATER QUALITY OR FLOOD PREVENTION Extensive areas within this lease are considered critical areas for flood prevention and/or erosion control by the Forest Service. Surface occupancy may be restricted or limited in order to assure minimum conflict with erosion control or flood prevention goals. |
| COE – LEWISVILLE LAKE FLOWAGE EASEMENT | CORP OF ENGINEERS – LEWISVILLE LAKE FLOWAGE EASEMENT Planned activities, including construction and placement of buildings, roads, tank batteries, as well as other oil & gas production supporting items in the flowage easement must be submitted to the Lewisville Lake office for evaluation and permitting prior to construction. |
| COE - NSO/DD TX,OK, KS | NO SURFACE USE OCCUPANCY, OPEN FOR DIRECTIONAL DRILLING This stipulation is used by the Corp of Engineers to protect surface resource values and uses from drilling activities. This stipulation is applied to public use areas, recreation areas, state wildlife and waterfowl refuges, historical sites, trails, roads and military training areas. Directional drilling is permitted from outside the identified areas where occupancy is allowed. |
| USF&WLS-SS-1 | NO SURFACE OCCUPANCY The tract may be drilled directionally from an off-site location where occupancy is allowed. Operations must be conducted without interference or disturbance to the wildlife. Construction activities will be conducted outside the normal nesting season for migratory birds (March through August) or migratory bird surveys will need to be conducted. |
| ORA-1 TX, OK, KS | FLOODPLAIN PROTECTION A result of EO 11988 Floodplain Management of May 24, 1977. All or portions of the lands under this lease lie in and or adjacent to a major watercourse and are subject to periodic flooding. Surface occupancy of these areas will not be allowed without the specific approval, in writing, of the Bureau of Land Management. |

| | |
|-------------------------------|---|
| <p>ORA-2 TX, OK, KS</p> | <p>WETLAND/RIPARIAN Mandated by EO 11990 Protection of Wetlands of May 24, 1077. All or portions of the lands under this lease contain wetland and/or riparian areas. Surface occupancy of these areas will not be allowed without the specific approval, in writing, of the Bureau of Land Management. Impacts or disturbance to wetlands and riparian habitats which occur on this lease, must be avoided or mitigated. The mitigation shall be developed during the application for permit to drill.</p> |
| <p>ORA-4 TX, OK, KS</p> | <p>NO SURFACE OCCUPANCY To protect and preserve significant cultural and other resource values of this lease. The tract could be leases for inclusion in a drilling unit and may be drilled directionally from an off-site location where occupancy is allowed.</p> |
| <p>NM-8 OK</p> | <p>COAL PROTECTION This stipulation requires that any federal oil and gas operator must coordinate development within the Federal coal lessee. This stipulation is used to protect the value of the Federal coal resource.</p> |
| <p>WO-ESA-7 TX,OK, KS</p> | <p>CONSULTATION STIPULATION The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 <i>et seq.</i>, including completion of any required procedure for conference or consultation.</p> |

PECOS DISTRICT LEASE STIPULATION SUMMARY
ROSWELL FIELD OFFICE

| <u>Stipulation</u> | <u>Description/Purpose</u> |
|---------------------------|--|
| SENM-S-17 | CONTROLLED SURFACE USE – SLOPES OR FRAGILE SOILS Surface disturbance will not be allowed on slopes over 30 percent. Occupancy or use of fragile soils (e.g. dunes, gypsum soils) will be considered on a case-by-case basis. |
| SENM-S-20 | CONTROLLED SURFACE USE – SPRINGS, SEEPS, TANKS Surface disturbance will not be allowed within up to 200 meters of earthen tanks or adjacent riparian areas; from the source of a spring or seep; or within downstream riparian areas created by flows of a spring or seep or resulting from riparian area management. |
| SENM-S-22 | CONTRROLLED SURFACE USE – LESSER PRAIRIE CHICKEN (LPC) Drilling for oil or gas, and 3-D geophysical exploration will not be allowed in LPC (<i>Tympanuchus pallidicinctus</i>) habitat from March 1 through June 15. During that period noise producing activities associated with these operations will not be allowed between 3:00 a.m. and 9:00 a.m. In addition, no new drilling will be allowed within up to 200 meters of leks, and exhaust noise from pump jack engines must not exceed 75 db measured at 30 feet from the source of the noise. |
| SENM-S-52 | CONTROLLED SURFACE USE - OFF-SITE MITIGATION Pending; Under Development |
| NMLN-11 | LEASE NOTICE – CULTURAL RESOUCES All development activities proposed under the authority of this lease are subject to compliance with Section 106 of the National Historic Preservation Act and Executive Order 13007. Compliance could require intensive cultural resource inventories, Native American consultation and mitigation measures to avoid adverse effects. |
